

## Mobile Cellular Router and Wireless Solution

Brightclick Solutions Sdn Bhd would like to introduce **Pepwave Mobile Cellular Router Solution** which able to provide the WAN and VPN connectivity via single or multiple mobile broadband which supported PepVPN (The world easiest site-to-site VPN) and SpeedFusion (Site-to-Site VPN Bonding).

### MAX Router Series

#### Single Cellular

- Industrial Routers with Redundant SIM Slots for Auto Failover

#### Multiple Cellular

- Industrial Routers with SpeedFusion Bonding / Link Load Balancing

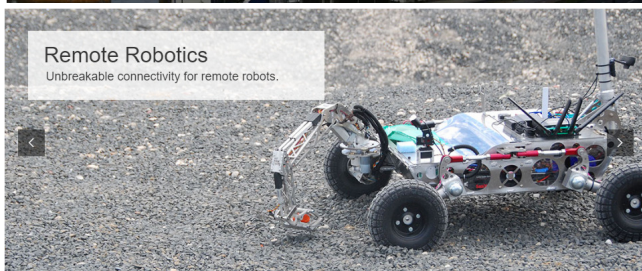

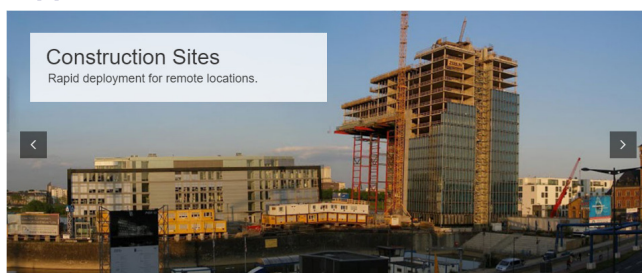

#### Outdoor

- Industrial Routers Compliant with the IP55/ IP67 Standard

#### Content Caching

- Quad 4G LTE Content Caching Router

### Applications:

**Brightclick Solutions Sdn Bhd** (Company no:780570-T)

31-2A, Level 1, Jln PJU 1/3D, SunwayMas Commercial Center, 47301 Petaling Jaya, Selangor, Malaysia

Tel: (+6-03) 78030727 / 78042803 / 78042306 Mobile: +6-016-6659321 / 016-2601159 Fax: (03) 7803 8776

Email: [info@brightclick.com.my](mailto:info@brightclick.com.my) Website: [www.brightclick.com.my](http://www.brightclick.com.my)

### Features:

SpeedFusion Bandwidth Bonding

SpeedFusion Bandwidth Bonding combines all connected bandwidth into a single superfast stream, using the same or different providers.

PepVPN is our foundation VPN engine. It is ideal for establishing a secure tunnel over any WAN link and is possibly the world's easiest VPN technology.

Built Tough

MAX industrial 4G routers can withstand punishment and extreme temperatures. IP67 outdoor routers can take on any environment.

Dual SIM Slots

Dual SIM slots allow you to use two SIM cards for each single cellular modem, increasing your coverage.

GPS Fleet Tracking

Use InControl to keep tabs on the location of each vehicle and manage your mobile network from any Internet-connected device.

Terminal Block

Serial-capable terminal blocks assist in securing power to the device as well as enabling M2M device communication.

Multiple Certifications

Certifications include: FCC, CE, RoHS, E-Mark, Shock and Vibration Resistance, Railway Applications, and Electromagnetic Compatibility.

Branding your captive portal is as easy as uploading your logo and terms & conditions. You can easily set bandwidth allowance and access duration per user or manage access using RADIUS server.

## Mobile Cellular Router and Wireless Solution

**Pepwave Wireless Solution** is to provide the Wi-Fi connectivity that delivers enterprise-grade performance, the flexibility to deploy anywhere, and easy setup and management. From the tiny but mighty AP One In-Wall to the super-tough AP One Flex, the AP One series offers fast, secure, long-range Wi-Fi that goes wherever you do.

### AP One Series

### Features

Upgrade your network to 11ac Wi-Fi. Our access points are compatible with the latest smartphones and tablets.

Reduce Wi-Fi congestion and interference. Simultaneous dual-band Wi-Fi gives you two independent networks that work together

Control network access with separate logins for each user group. AP One access points support up to 16 SSIDs, each with independent bandwidth limits and web blocking.

Guests can now access your Wi-Fi hotspot with their Facebook login. In exchange, you can learn more about your customer base with insightful reports.

Configure AP One access points onsite or from the cloud. Our AP Controller lets you locally manage access points from your Balance router, while InControl 2 offers a complete cloud-based solution accessible from any web-browser
